## Slimline Floor Stand for 15" - 22" Touch Screen

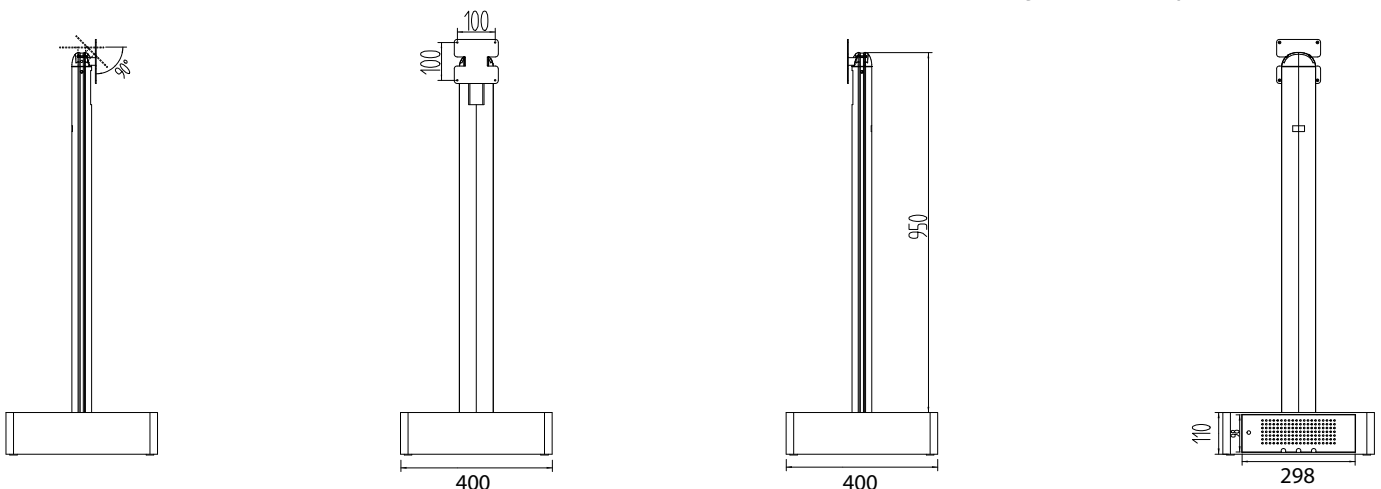

This slimline floor stand uses minimal floor space while standing out with a simple elegant design. The slim line frame is slim on your budget too! Easily adjust the angle of the VESA mount to get your touch screen facing the right direction. Store your computer out of sight in the base plate. Use the clever cable management through the channel of the pole to keep your cables neat and tidy. Use our range of stands for a rock solid and wobble free experience while touching your screen. Easily switch between portrait and landscape orientation.

*Shown with InTouch INDT215 21.5" (not included)*
