Robust steel construction

Located in high-traffic public retail locations, mine-sites, workshops, manufacturing facilities and unattended reception areas, the In Touch kiosk range is designed to stand up to tough conditions. With toughened glass screens, tamper-resistant features and the ability to bolt down when required, you can feel confident that the kiosk you install will last for years.
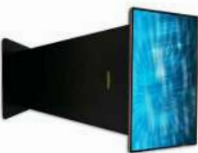

DESIGNED &
MANUFACTURED
IN AUSTRALIA

Key features:

- Australian designed and manufactured
- Steel construction with a durable, powder-coated finish
- Internal guide holes to bolt down when required
- Tamper-resistant features, with no exposed screws or rivets
- Commercial-grade, long-life components used throughout
- Protective toughened glass on touch screens
- Easy servicing with convenient easy-to-swap components
- Key lockable access doors and secure PC access panels

Tapered rear design

Cooling fan with thermostat

Secure Key Lock
Tamper resistant design

Power & data feed through floor mounted base plate or from the wall through the cable grommet
