KIO-LITE156P-AUR

COUNTERTOP KIOSK

The InTouch KIO-LITE-156-AUR 15.6" portrait kiosk is a compact countertop unit perfect for self-service QSR and retail stores. The base is designed to neatly house a thermal label printer, making this kiosk a perfect solution for customers to self-order and pay.

Built to industrial standards, the kiosk's clever modular design can incorporate a thermal receipt printer, a QR code + barcode scanner and has the ability to add a bracket for your EFTPOS terminal. All of which are compactly and securely integrated. The robust steel constructed stand is finished with a durable powder-coat finish and the touch screen boasts toughened glass that can withstand high-traffic public spaces. Conveniently, the edge-to-edge glass allows for an easy, regular cleaning regime with isopropyl or sterilising wipes.
