DATA SHEET

KIO190 KIOSK

The clever modular design of our 19" kiosk allows you to personalise the unit to your unique requirements. We build in your preferred peripherals, brand it to your guidelines and deliver a solution that is purpose built for your unique needs.

The visually appealing slimline design with soft corners, trendy tapers and a blush glass finsh make it suitable for showrooms, retail stores and other environments requiring an elegant solution. The solid steel construction, commercial components and toughened glass make it equally at home in a factory, workshop, public environment or other locations that require a rugged solution.

DISPLAY FEATURES
