

DATA SHEET

KIO215PTTN KIOSK

The KIO215PTTN countertop kiosk is a sleek, modern self-ordering solution ideal for food and retail environments where space efficiency and visual impact are equally important. Its clever printer-free design delivers a compact footprint while still offering a large 21.5" display, maximising menu visibility and customer engagement without cluttering the counter. The slim pedestal-style body and refined industrial design create a clean, contemporary aesthetic well suited to premium restaurant fit-outs.

The vibrant, edge-to-edge toughened glass display draws customers in, presenting menus and ordering options clearly and attractively. With Full HD 1920 x 1080 resolution, the screen delivers rich, detailed visuals that encourage confident, self-directed ordering.

Popular across QSR venues, convenience stores, food courts, and cafés, the KIO215PTTN is designed to streamline ordering while minimising the amount of real estate required to accommodate it. Its compact form, large immersive screen, and durable construction make it an ideal express self-service kiosk where performance, simplicity, and design matter most.
